Hotchkiss

Hotchkiss sofas are all built to order in our Derbyshire workshops, using the finest materials available.

We specialise in British-made woollen fabrics and have several *Harris Tweed* patterns which are exclusive to us, as well as offering the full range from *Moons* and *Art of the Loom*. *Snelston Tweed* is made from the wool of sheep raised near our workshop in Derbyshire and we are pleased to offer it as upholstery grade fabric on our furniture.

We have a full range of cushion fillings, but use the very best of materials including feathers and cashmere hair. All our upholstery proudly carries the Hotchkiss label, the mark of quality handmade furniture.
